Price      : 375
```

A screenshot of a DOSBox 0.74 window. The title bar shows 'DOSBox 0.74, Cpu speed: max 100% cycles, Frameskip 0, Program: TC'. The window contains a text-based interface for a travel planning program. The user has entered '1' for plan code, 'Puri' for place, and '32' for the number of travellers. The program has calculated that 2 buses are needed and has successfully planned the travel. The cursor is at the end of the last line.

```
DOSBox 0.74, Cpu speed: max 100% cycles, Frameskip 0, Program: TC
Enter plan code: 1
Enter place: Puri
Enter no. of travellers: 32

Plan code      : 1
Place          : Puri
No. of travellers : 32
No. of buses    : 2
Travel planned successfully._
```
